ADDENDUM #1 BID #2024-55

Underground Storage Tank Removal – Fairfield Police Station and Operation Hope

11th April 2024 – It is intended that this Addendum incorporating the following corrections, revisions, additions, deletions, and clarifications become part of the Contract Documents, including pricing as submitted.

Questions:

1. Is 4” of pavement restoration to be provided by the contractor and the cost included in Base Bid #1 and Base Bid #2? If it is, then the Add Alternate for pavement restoration will be a credit to the contract should the Town of Fairfield decide to pave these two locations instead of having the tank removal contractor do it?

Response: The Add/Alternate should only be included in #4 of the Bid Proposal form and not in base bids #1 or #2.

2. Are LEP services (tank closure sampling and tank closure report) to be provided by the contractor and the cost included in Base Bid #1 and Base Bid #2 or is the Town providing these services?

Response: Please refer to page 6 of the bid for LED services.

3. What is the exact linear feet of the fence requirement?

Response: Use your best judgment to keep the work zone safe. We don't have measurement requirements.

4. Who is the control contractor the town of Fairfield uses?

Response: Fairfield UST Controls contractor is:

R-Value Construction Group, LLC
6 Point Breeze Road
Uncasville, CT 06382
860-917-1261
