

Town of Fairfield Engineering Department

Sidewalk and Curb Requirements

Revised March 7, 2019. April 1, 2020.

The Engineering Department issues permits for sidewalk and curb construction that is within the public right of way.

- If replacing an existing concrete sidewalk or curb, the new sidewalk or curb must be concrete as well unless approved by the Director of Public Works or Engineering Manager for extraordinary cases.
- For new construction, all curb and sidewalks shall conform to current TPZ requirements.

There is no fee for a sidewalk or curb permit from Engineering. However, there is a **\$100.00** fee for a street opening permit which is required for any and all work performed within the public right of way, through the WPCA.

All permits, specification drawings and additional information can be obtained at the Engineering Department Office.
